

Brew Sisters is a craft brewing beer entrepreneurship born in Bariloche (Río Negro, Argentina) in 2018 and developed in the same town. It is carried out by three women who are looking for position themselves as a reference brand in Bariloche.

The name Brew Sisters seeks to represent us as women brewers, evoking and rescuing from history the word Brewster that mean *woman who brews beer*. You will participate of a guided tasting which you will be introduced to the different crafted BS beers.
